

74WELD

FORD BRONCO

STEERING RACK

YOUR STEERING SOLUTION

The 74Weld Steering Rack Housing for the 2021+ Ford Bronco is a robust, billet machined, replacement for your cast factory housing. We have incorporated feedback from hardcore off-roaders to provide a solution that addresses the causes of common failure modes.

- Rack bar deflection
- Fracture of end cap
- Fracture of preload adjuster housing

In addition, we will be offering upgraded tie rods and the higher torque output HOSS 3.0 motor.

KEY FEATURES

- ***Machined from billet 6061 Aluminum***
- ***Beefed up housing profile***
- ***Rack supported by precision machined bushings***
- ***Re-Use gears, bearings and motor***
